

-Military member and Married to a military member.

Chalet Program

-This program is best enjoyed by families with children and does not support single members or couples without children. The timings are inflexible and most destinations are not easily accessible for all personnel in Europe.

-Have never used this program

-Great programme. we have been successful getting one of these and really enjoyed it. We continue to try and get one in each draw. Money well spent!

-Not required. Europe has enough to offer.

-Love this program

European Fund Grant

-Don't know what you do?

-Was not always able to beneficiate from this

Spousal Deployment Support

-This should take a higher priority than Chalet Program

-More money should be given to this support

Academic Program

-Don't know what you do

-More money should be given to this support

-not aware of this program!

Can you suggest any other PSP morale and welfare program(s) that could be funded through the European Fund? Keep in mind it must be open to all European Fund members.

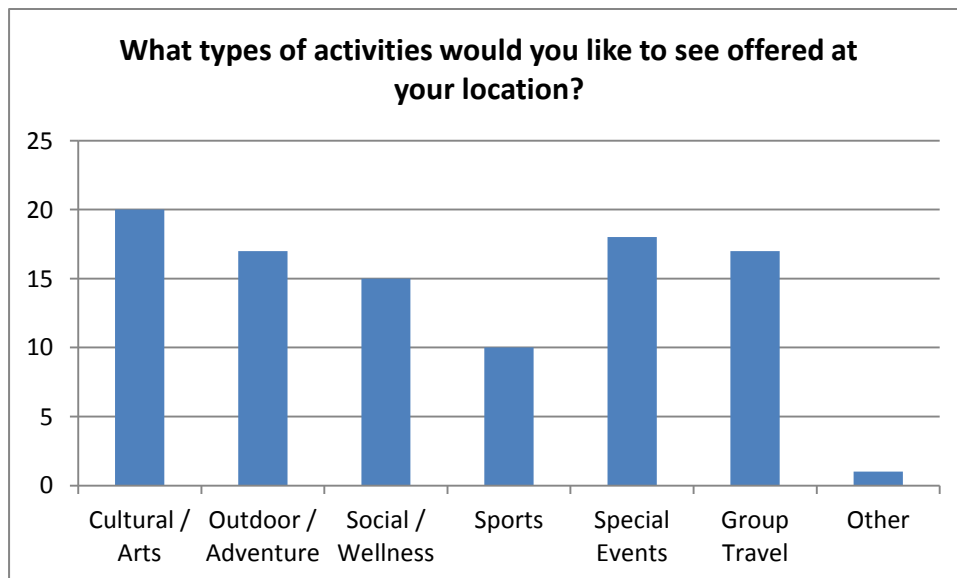

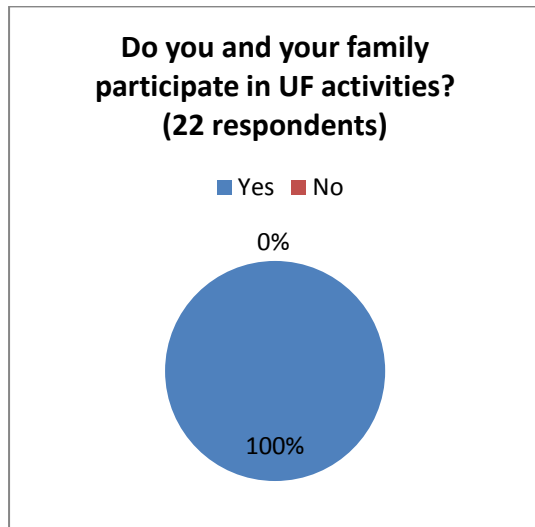

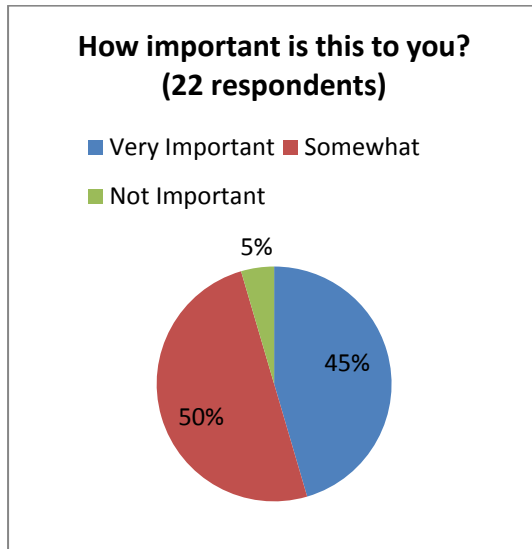

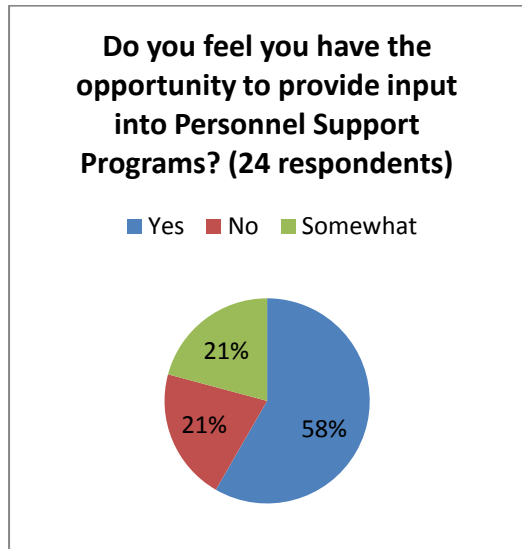

-Le maintien des activités (Carin) subventionnées est important. C'est lors de ces sorties que le ciment du groupe se forme.

-Scholarships or educational support, community outreach locally (i.e. working with local charities) to build relationships, improve perception of Canada's involvement in communities

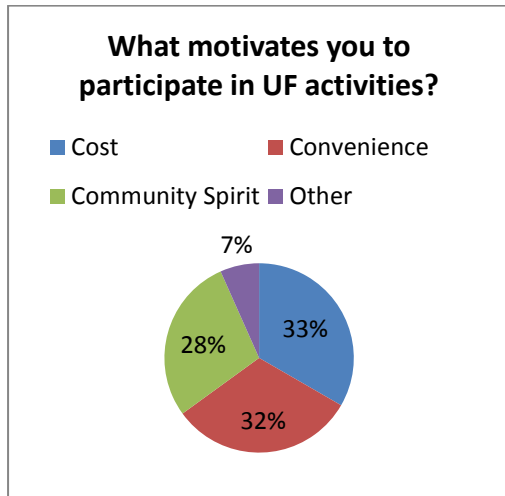

-if we do annual Youth Conferences - why can't we do a similiar type of thing for spouses? perhaps a group for those with young children; a group for males spouses; a group for older couples learning to become "emptynesters", etc

-Certainly anything that could be done to help the youth. The current youth employment scheme is good but anything that could be done to further this would be helpful especially in light of the limited opportunities that they have for employment.

-Can we look at increasing the Chalet program ?. The location can be a survey from the families.

-Local information sessions, i.e. How to use the transit systems

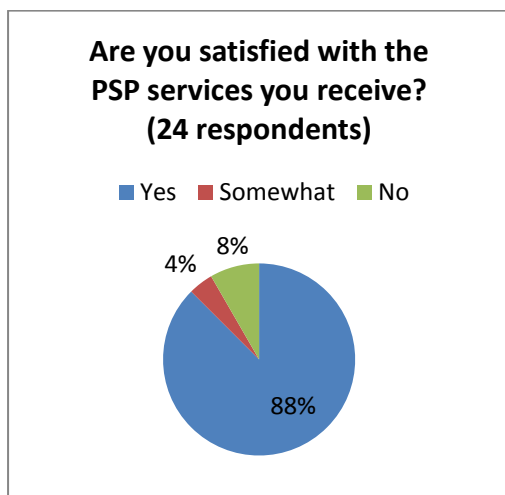

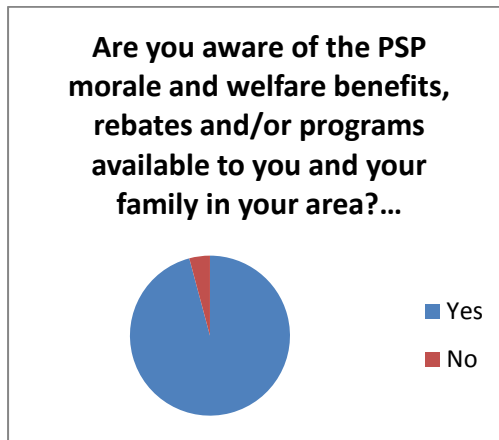

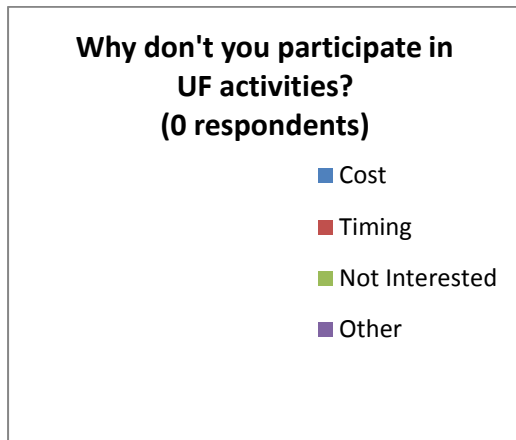

-a terrific way to see and experience the community that we are now living in

-What the activity is.

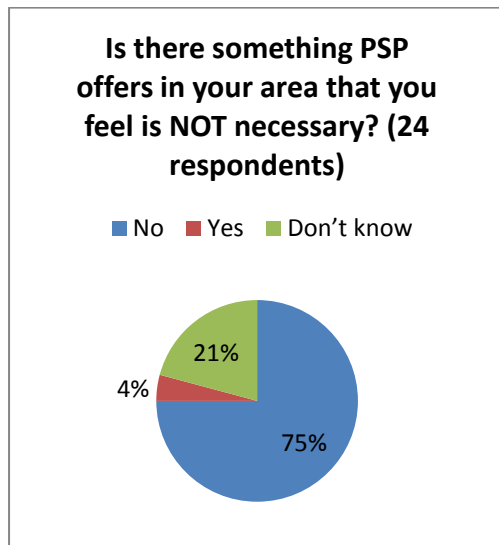

-If it interest us

-Limited knowledge of the area means these group efforts broaden our horizons a bit.. We have gone back to many of the places we have visited as part of UF activities on our own with company from Canada.

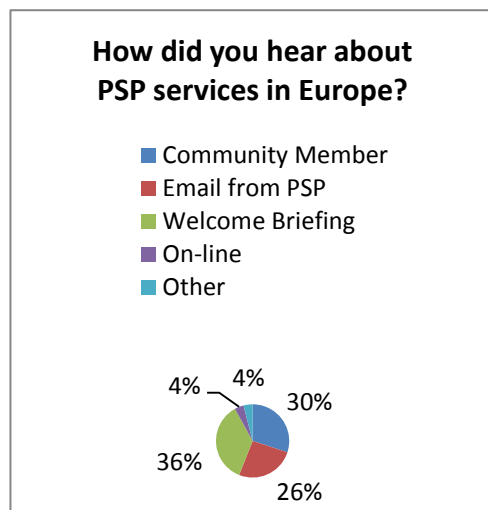

-Fitness classes (Yoga/Pilates) at the Villa

-Less activities with more use of Unit Fund. Make the activities worthwhile and not always the same year after year.

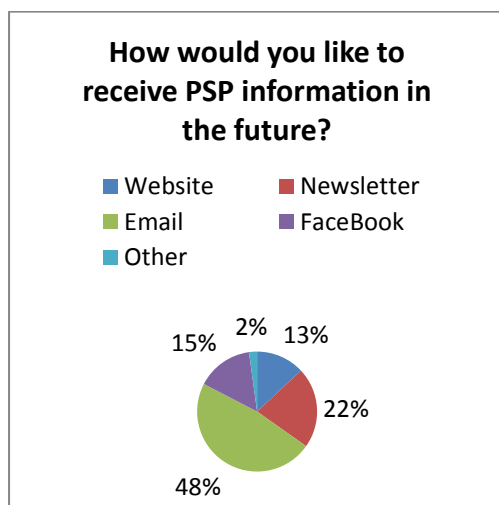

-Christmas Dinner Party, tickets to museum/activities without providing transportation.

-J'ai déjà travaillé pour le PSP et de plus comme je disais, en Italie, c'est nécessaire. J'ai eu d'autres postings où ce service n'existait pas et ça me manquait.

-I have an employment history as a military manager responsible for PSP activities on various bases

-A weekly newsletter and/or website instead of random emails.
